ActiveWorksheets

Develop enquiry based, historical thinking

- Take a journey around the world and through time with the Archaeology ActiveWorksheet pack.
- Designed for KS2.
- 10 worksheets take pupils to a different time in history, showing how historical enquiry helps us understand our past.
- Amazing **augmented reality** including:
 - Open an ancient Mesopotamian receipt.
 - Reveal a satellites view of archaeology.
 - Bring Otzi the Iceman back to life.
- Fully planned and resourced lesson activities.

Search for 'Archaeology ActiveLens' on iTunes and Google Play. Download the free app and try it for yourself!

Point the app at the Olmec Head to see what these incredible sculptures would have looked.

Dotted around several locations in Mexico, are huge statues of stone heads.

These heads were carved by the Olmecs, a culture living along the Gulf Coast between 1600 – 800 BC. They were carved using stone tools from basalt quarried from mountains 80 miles away!
